## **UniFi Outdoor Cable**

Outdoor Category 5e cable designed to resist harsh weather damage and electromagnetic interference.

The UniFi Outdoor Cable is an all-weather Category 5e cable designed to protect Gigabit Ethernet links from harsh weather damage and electromagnetic interference with its highly insulating, white, weatherproof jacket and built-in ESD drain wire. This 1,000-foot (305 m) cable also features 24 AWG solid copper conductor pairings and internal foil shielding to optimize connection stability and performance.
