

DVI Dual Link Splitter Cable, 2 Way

No.: 41215

Affordable alternative to a desktop DVI video splitter!

Description

- Allows two DVI monitors to be connected to a single DVI output
- DVI-D Male to 2 x DVI-I Female
- Dual Link connectors
- Designed for short range desktop installations of up to 10m; for longer distances we recommend you use our
- Gold plated connectors
- Cable length: 18cm

This splitter cable allows two monitors to be connected to a computer's single DVI port. It's a passive cable which simply splits a single DVI signal into two without any amplification or signal regeneration, making it an ideal, cost effective solution for shorter installations.
